## Senior Project Manager (Construction)

RFNOW Inc. is seeking applications from motivated individuals to join our team as a **Senior Project Manager**. The successful candidate will be a key leader in providing oversight, leadership, and guidance for several important fibre construction projects that are fundamental to the continued growth of our organization. You will help align and coordinate personnel, resources, and work processes to ensure that infrastructure construction projects are completed effectively and efficiently.

### Key Responsibilities

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Collaborate with Construction, and Engineering and Design teams in the development of project scopes and objectives, involving all relevant stakeholders, and ensuring technical feasibility
- Ensure resource availability and allocation; materials, equipment, and manpower.
- Develop a detailed project plan to track and report on project progress
- Use appropriate verification techniques to manage changes in project scope, schedule, and costs
- Measure project performance using appropriate systems, tools, and techniques
- Report and escalate barriers or interruptions to management as needed
- Liaise between construction manager and crews, design & engineering and client services to ensure alignment and accuracy regarding progress for the project(s)
- Perform risk management to minimize project risks
- Help facilitate the acquisition of required licenses and permits to ensure they are in place prior to construction
- Ensure administrative requirements are met throughout the project such as contract preparation and monitoring, procurement, and invoicing etc.

### Qualifications & Experience

- Demonstrated success as a project administrator in the telecommunications sector
- In-depth understanding of construction procedures and project management principles
- Solid technical background, with understanding or hands-on experience with applicable software and/or web technologies
- Strong working knowledge of Microsoft Office
- Familiarity with construction/ project management software
- Excellent written and verbal communication skills
- Excellent organizational and time-management skills
- Solid organizational skills including attention to detail and multi-tasking skills
- Proven leadership abilities
- BSc/BA in engineering or related field of study may be beneficial
