Legal Survey Technician

RFNOW Inc. is looking for an experienced Senior Legal Survey Technician to be a part of planning operations for telecom projects in Manitoba and Saskatchewan.

Key Responsibilities:

- Preparing and reviewing Telecommunication design and drawings of outside plant underground network facilities
- Conducting field surveys and site visits determining optimal routes for projects
- Interpreting and applying Telecommunication standards while assisting with preparing high quality designs and drawings
- Creating design details in software such as AutoCAD, Visio and SpatialNET
- Participating in meetings with key-stakeholders to ensure the successful outcomes of a project.
- Attending site meetings, site visits and field inspections with clients, municipal authorities, utilities & various project stakeholders as required
- Following company standards and procedures related to Health & Safety while performing assigned job duties
- Ensuring schedule deadlines are adhered to and project deliverables are maintained
- Perform quality control and field checks of construction and inspections
- Reading and interpreting outside plant records (data, maps, fiber network designs)
- Conduct site walk for data collection of all surface features and underground utility data necessary to support the preparation of the construction drawings that are complete and suitable for construction
- Collaborating with team members from other divisions to overcome project challenges and issues
- laying out proposed Fibre lines in relation to property lines.
- Surveying Rail and pipeline crossings
- Providing Survey drawings for crossing agreements and contractors.
- Providing survey data for easements

Qualifications:

- Legal Survey Certification
- Graduate from a technical college program preferably in civil, electrical/telecommunications, GIS, or equivalent experience
