

## Apple iOS Email Setup Instructions

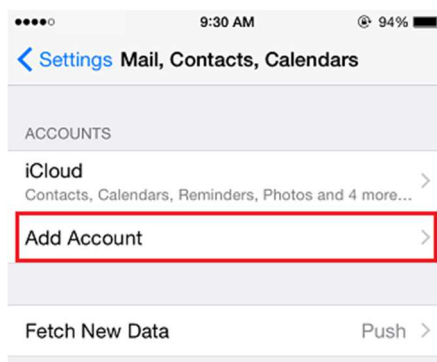

Follow these steps to configure your iOS 7 or higher Apple device (iPod Touch, iPad or iPhone) to use your @rfnw.com mailbox.

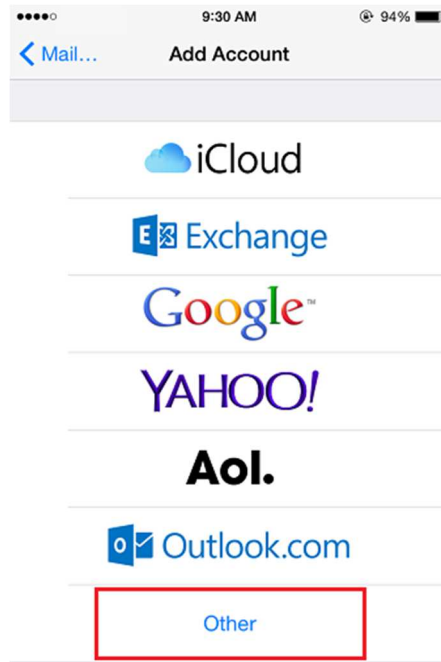

1. Tap the **Settings** icon.
2. Tap the **Mail, Contacts, Calendars** icon to view list of current accounts.

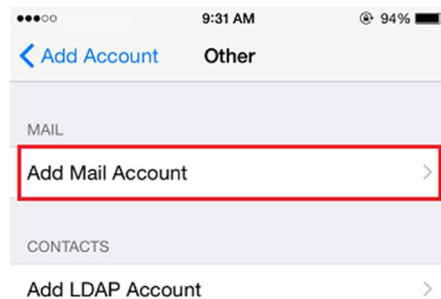

3. Tap **Accounts**
4. Tap **Add Account** to start the setup process.

5. Tap **Other** from the common account type list.

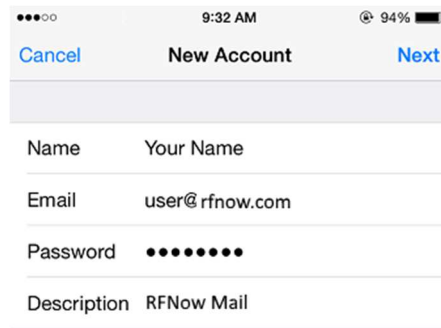

6. Tap **Add Mail Account** to continue.

7. Enter:

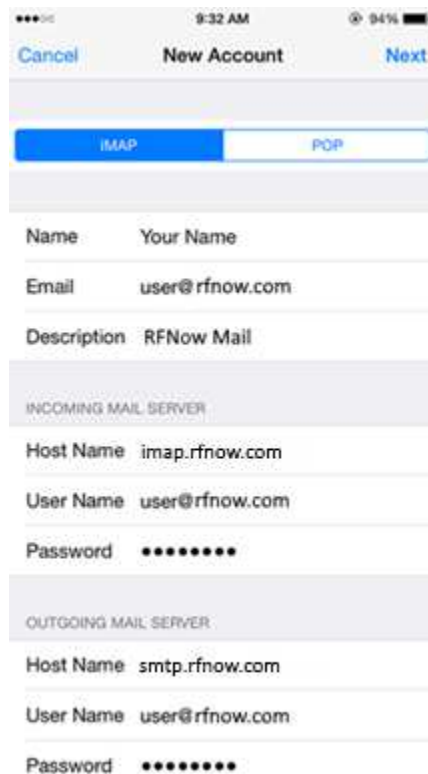

- **Name:** Name to be displayed on your outgoing emails.
- **Email:** Your @rfnow.com email address (e.g. username@rfnow.com)
- **Password:** Your email password.
- **Description:** Name displayed when viewing account on device.

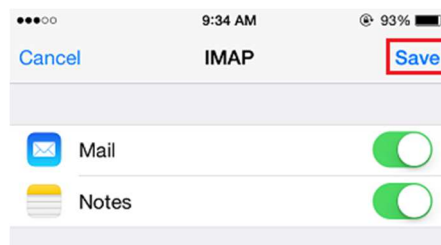

8. Tap **Next** to continue setup.

9. If verification fails, click **OK** on the error if one appears and perform these steps:

- Ensure the **IMAP** option is highlighted at top of the page.
- **Name:** Name to be displayed on your outgoing emails.
- **Email:** Your @rfnow.com email address (e.g. username@rfnow.com).
- **Description:** Name displayed when viewing account on device.
- **Incoming Mail Server:**
  - **Host Name:** imap.rfnow.com
  - **User Name:** Your @rfnow.com email address (e.g. username@rfnow.com).
  - **Password:** Your email password.
- **Outgoing Mail Server:**
  - **Host Name:** smtp.rfnow.com
  - **User Name:** Your @rfnow.com email address (e.g. username@rfnow.com).
  - **Password:** Your email password.

10. Tap **Next** to accept the settings.

11. Tap **Save** to return to the Mail, Contacts, Calendars page.

12. The new account settings will be shown in the accounts list. Press the **Home** button on your device to return to the main screen.

13. Tap the **Mail** icon to open the email app.

14. Your device will now retrieve your messages.
