Setup Email in Apple OS X Mail

IMAP Setup:

1. Open your Apple OS X **Mail** application
2. First-time users will have a "Choose a Mail account provider..." message Otherwise select **Mail** from the top-left of your screen and then select **Preferences - Accounts**. Choose the + button in the bottom-left corner of the window to create a new account.
    a. Select **Add Other Mail Account...**
    b. Click **Continue**
    c. Enter your name, RFNOW email address, and password
    d. Click **Sign In**
    e. Click **Done**
