RFNOW Inc. is seeking applications from motivated individuals interested in joining our *Technical Services Team*. As a *Cyber Security Specialist*, you will be responsible for security of RFNOW's IT systems. Designing, implementing, and testing security systems. Monitoring, detecting, investigating, analysing and responding to cyber security threats. Coordinating, escalating, and notifying support team involved to block and remediate cyber security incidents in a timely manner.

General Responsibilities:

- Building, configuring, maintaining, security infrastructure and services.
- Working with other teams to improve the security of the organization.
- Implementing and adapting monitoring, logging and alerting services to meet the organizations needs.
- Creating documentation and procedures for other teams as part of your level 3 support for security systems.
- Core identity repositories setup and configuration to enhance security.
- Single sign-on and other security integrations with cloud/SaaS services to the core IDP's.
- Researching and proposing enhancements to fix gaps or improve the organizations security.
- Understanding and awareness of company products and services, as well as industry changes and trends.
- Develop training programs and knowledge transfers to help other employees be more security aware and knowledgeable.
- Handling and coordinating threat responses.
- Tracking and producing reports and metrics for cyber security issues.

Qualifications & Experience:

- A degree in computer science or equivalent training and experience.
- 5+ years experience working as a cyber security professional.
- Proven track record of learning and adapting to changes in the cyber security landscape.
- Strong communication and technical skills.
- Experience working in an ISP organization.
- Active Directory, AzureAD, and Office 365
- Windows Desktop and Servers group policy
- NMS, centralized logging, and alerting systems
- Cisco networking training or certification
- Central management/monitoring of any endpoint virus, malware, security software.
- Actively working towards a CISP certification

If interested, please forward your resume detailing your qualifications to Careers@rfnw.net
