Fibre Splicer

RFNOW Inc. is seeking applications from motivated individuals to join our team as a **Fibre Splicer**. This is an opportunity to work in a growing organization joining a team that will have great variety in their day to day duties.

Role & Responsibilities:

- Splice and test fibre optic cables in all inside/outside plant applications – buried and underground; both on newly placed cable and existing cables
- Analyze test results and have the ability to troubleshoot and correct any faults or defects
- Interpret and understand placing and splicing work plans
- This position requires that the individual be motivated and self-disciplined, able to work on his own or closely with other team members to optimize efficiency to ensure that the client's due date(s) are met

Expertise & Requirements:

- Experience as an Fibre Optic Splicer is an asset but will train right candidate
- Ability to interpret placing and splicing plans
- Competency in OTDR and other testing protocol an asset
- Must have a Drivers' License and provide a current clean drivers abstract
- Ability to travel to various work sites as work load dictates
- Overtime required in applicable situations in order to meet customer delivery commitments; this could include some night and weekend work
- Work in all weather conditions

If interested, please contact Chris Kennedy (204-748-4842) for more information or forward resumes detailing your qualifications to careers@rfnow.com.
